\* Completion times are approximate and subject to change.

## Potholes on borrowed time

Townsville City Council road crews are revisiting hundreds of potholes to carry out more permanent repairs.

After this year's record wet season, crews and contractors worked around the clock to carry out temporary patching to make the roads as safe as possible for motorists.

The end of the big wet has meant the underlying road surface has now dried out, giving crews the chance to plug up potholes with a hot-mix asphalt to provide a more lasting solution.

Motorists are urged to drive carefully where road crews are working.

Crews are busy filling potholes in the wake of the wet season.

**NEED TO REPORT A POTHOLE?**  
Call 4727 9000 or lodge a maintenance request at [www.townsville.qld.gov.au](http://www.townsville.qld.gov.au).

## New Victoria Street Bridge

A project to replace one of Townsville's oldest bridges is well underway. The 80 year old Victoria Street Bridge over the Stanley Street cutting in the CBD is being replaced with a new \$2.4 million bridge. The new structure is being constructed in two stages to allow one lane to be open at all times.
