

BUILDING FOR OUR FUTURE

Roadworks: What you need to know

Did you know that Townsville City Council maintains more than 1,771 km of roads throughout our region?

Our roads link Townsville's commuter network making them one of our most critical assets, which is why Council continues to prioritise their maintenance.

Works will involve:

Will there be traffic management in place?

There may be partial road closures and/or associated parking bays and footpaths depending on the type of works being conducted.

Will I have difficulty accessing my property during the works?

- **Preparation works**
You will still have access to your property with some minor disruptions.
- **Bitumen spraying and Asphalt Overlay**
Access to your property will be limited during working hours as road closures will be necessary. Council crews will always arrange access for emergency services vehicles.

Where do I park my car during the works?

On-street parking may be restricted in the area of the roadworks depending on the type of works being conducted. During the works we ask that vehicles are parked within your property or in a nearby street before 6am on the day works commence.

What if I need to arrange access to my property/business throughout the duration of the works?

Access to your property or businesses may be restricted depending on the works conducted, if this is the case a Council representative will make contact at least 24 hours prior. If you need to arrange access speak to an onsite crew leader or contact Council on 13 48 10 and let them know of your situation.

I have a disability and/or care arrangements. How can I arrange access to my property/mode of transport?

Speak to an onsite crew leader or contact Council on 13 48 10 and the crew leader will contact you to make arrangements.

Townsville City Council would like to thank all impacted for their patience and cooperation during these works.

Roadworks: Council Works Notification

Works location: Ingham Road / Mather Street Intersection, Garbutt

Flyer delivery date: Monday, 14 September 2020

Townsville City Council has been successful in securing an external budget line to improve Townsville's connectivity infrastructure as part of The State Road Network Upgrade Program an initiative by the Queensland Government.

This program which is funded by the Queensland Government administered by the Department of Transport and Main Roads and delivered in partnership with Council aims to improve the commuter safety and operations for all road users of the identified intersection and improving the surrounding road network.

Council has commenced the rollout of the State Road Network Upgrade Program and as a part of this program has identified that the Ingham Road and Mather Street intersection requires roadworks renewal.

Roadwork projects may include kerb and channel (gutters), driveways, footpaths, pavement, bitumen, and asphalt treatments. These works prolong the life of the infrastructure and improve road safety. Additional works may also include intersection line marking, kerb ramping and associated **traffic signals** infrastructure upgrades.

The **Ingham Road and Mather Street** Intersection Traffic Signals and associated road works are scheduled to commence on **Saturday, 26 September 2020** and are expected to take **four (4) weeks** to complete (weather and conditions permitting).

Pedestrian and vehicle access to properties will be maintained for most of the project; however minor restrictions will be required during the works. If your business or residence is affected, Council will provide 24 hours' notice before any restrictions.

Works may involve:

- traffic management including traffic control and some road closures
- closure of the footpath and some parking bays
- safety fencing installed for pedestrian and vehicles
- flashing lights and noise

On your bin collection day, please ensure your bins are out by 6am to be collected.

Normal work hours are **6am to 4pm Monday to Friday** and **6am to 2pm on Saturday**. In exceptional cases, work may be required outside these hours.

Contact: Brian Knack, Team Leader, Construction, Maintenance and Operations.
