

Concession of Water Charges for Home Haemodialysis Patients Policy

Local Government Act 2009

1. POLICY STATEMENT

To provide a concession for water service charges incurred in respect of kidney disease patients who are undergoing home haemodialysis treatment.

2. PRINCIPLES

Home haemodialysis treatment requires kidney disease patients to increase their water consumption over and above their normal domestic usage.

Townsville City Council accepts that ratepayers who are responsible for paying additional water consumption charges for water consumed during home haemodialysis experience hardship, and the Council wishes to alleviate that hardship.

Council will grant a concession on water service charges payable during treatment at the home of a haemodialysis patient when the ratepayer establishes to the Council that they are responsible for paying the water consumption charges.

3. SCOPE

This policy applies to ratepayers within Townsville who may experience hardship as a result of paying, or having an obligation to pay or share in the cost of paying, additional water consumption charges arising from home haemodialysis treatment.

4. RESPONSIBILITY

The Chief Executive Officer or delegate is responsible for approving concessions under this policy.

Managers and Supervisors of Council are responsible for ensuring that the policy is understood and adhered to by all relevant personnel.

5. DEFINITIONS

Home Haemodialysis Patient – means those persons within the Townsville local government area, who are registered with the Dialysis Home Therapies Unit, Townsville District Health Service, as receiving home haemodialysis treatment.

Manager – includes persons appointed to positions including the title, Team Manager, General Manager, Principal, Director and Chief.

6. POLICY

Council will provide a concession on water charges for residential premises occupied by home haemodialysis patients who meet the eligibility criteria set out in this policy.

The concession will be \$0.685 per day throughout the period of home haemodialysis, administered on each half yearly rate notice.

Council will regard a ratepayer as having an obligation to pay or contribute to paying the additional water consumption charges arising from home haemodialysis treatment when they:

1. Are the ratepayer for the property as shown on the Council's records and they or a dependant member of their family receive home haemodialysis treatment; or
2. Provide the Council with a statutory declaration that records that they are liable for the cost of the water consumption charges under an arrangement they have with a home haemodialysis patient, and a declaration from the patient that records that the additional water charges have not been passed on to the patient.

(Example: The ratepayer is the landlord of a property occupied by a home haemodialysis patient and they provide the council with a declaration from the patient that certifies that the patient has not been charged for or otherwise contributed to paying the additional water consumption charges).
