## SCHEDULE 12 – OPERATIONAL WORKS

### SCHEDULE 12 POLICIES >>

#### OPERATIONAL WORKS, COMPLIANCE ASSESSMENT AND WORKS INSPECTION CALCULATION OF FEES >>

Fees for assessment and inspection (other than advertising devices) are determined based on the cost of works inclusive of GST. Work estimates certified by the RPEQ must be submitted at the time of lodgement of the application as required.

For landscaping works, estimates can be accepted from a registered landscape architect or by the lodgement of a detailed quotation from a licensed landscape contractor. Estimates detailed quoted must be inclusive of GST.

For staged developments, the application fee is calculated per the cost of works for each stage.

All work associated with infrastructure that is or will become a council asset, the fees are equivalent to 100% of the operational works fee. These generally include:

- Sewerage infrastructure;
- Roads and associated infrastructure;
- Water infrastructure;
- Stormwater infrastructure;
- Works triggered by a cultural heritage overlay;
- Levee construction;
- Landscaping;
- Other operational works as prescribed by the Planning Act 2016 and/or Planning Regulation 2017.

Fees for the following are at 100% of the fee:

- Works not associated with the Planning Act 2016 and/or Planning Regulation 2017.

Fees for the following are calculated at 50% of the fee:

- Earthworks not associated with any works listed above;
- Works undertaken on a private asset as shown in the examples below.

Where an application contains a combination of works of private assets and those that are or will become council assets, the cost of works provided must be broken down into categories of works for council assets and works for private assets.

If the differentiation between council assets and private assets is not provided on the estimate of costs, the fee will be charged at 100% of operational works fee.

#### CALCULATION OF FEES FOR OPERATIONAL WORKS AND COMPLIANCE ASSESSMENT AND WORK INSPECTION EXAMPLES >>

##### EXAMPLE A, FEE CALCULATION FOR WORK BEING UNDERTAKEN ON A COUNCIL ASSET ONLY:

The [estimated] cost of works is \$500,000:

As this is a council asset, the fee is 100% of the calculated fee.

- a. The fee applying to all works up to \$300,000 = \$8,200
- b. For the \$200,000 portion of the cost of works above \$300,000, the is 1.5% of this amount = \$3,000

Total operational works fee is 100% x (a+b) = \$11,200

##### EXAMPLE B, FEE CALCULATION FOR WORKS BEING UNDERTAKEN ON A PRIVATE ASSET ONLY:

The [estimated] cost of works is \$500,000.

As this is a private asset, the fee is 50% of the calculated fee.

- a. the fee applying to all works up to \$300,000 = \$8,200
- b. For the \$200,000 portion of the cost of works at or above \$300,000, the fee is 1.5% of this amount = \$3,000.

Name	Year 18/19	
	Fee (excl. GST)	Fee (incl. GST)

## SCHEDULE 12 – OPERATIONAL WORKS [continued]

Total operational works fee is  $50\% \times (a+b) = \$5,600$ .

### EXAMPLE C, FEE CALCULATION FOR WORKS BEING UNDERTAKEN ON A COMBINATION OF COUNCIL-OWNED AND PRIVATE ASSET ONLY:

The [estimated] cost of works is \$500,000.

The cost of works for the council asset is \$200,000, and the cost of works for the private asset is \$300,000.

In this scenario, for the basis of working out the operational works fee, the cost of works for private assets is halved before calculating the fee, as shown in (b).

- Council assets: \$200,000
- Private assets:  $\$300,000 \times 50\% = \$150,000$
- The fee applying to all works up to \$300,000 = \$8,200
- The fee for the remaining \$50,000 is 1.5% of this amount \$750

The cost of works for determining the operational works fee is  $(a+b) = \$350,000$ .

Total operational works fee is  $c+d = \$8,950$ .

The following are not subject to a fee:

- For construction plans;
- First submission of "as constructed" plans (all others will incur a fee);
- First submission of quality assurance documents (all others will incur a fee);
- Street lighting, electrical plans and underground works (where the cost of these works are included in the associated operational works application);

#### BUILDING CLASSIFICATIONS >>

Where quoted all building classifications are as per the Building Code of Australia. Charges will be based on the classification stated on the decision notice. Where an application identifies two or more building classifications the applicable fee will be the higher of any identified classifications. Staged development lodgements on a property will attract a one-off payment if the estimated total value of works for all stages is given at first lodgement. Otherwise, fees will be charged for the lodgement of each subsequent stage.

#### TOLS LODGEMENT FEE >>

A reduced lodgement fee is applicable to building applications lodged online via the Townsville Online Lodgement System (TOLS). TOLS has been introduced to assist clients who regularly lodge applications with the Townsville City Council. For further information or to register please visit <http://www.townsville.qld.gov.au/business/tenders/Pages/tols.aspx>. All other methods of lodgements will attract the applicable standard lodgement fee.
