

# WATER FOR OUR LANDSCAPE

Water is the invisible thread that connects our natural and urban landscapes.

**TREES HELP KEEP OUR URBAN AREAS COOL DURING SUMMER.**

Water keeps these areas flourishing by providing a critical water source for trees and vegetation.

**WATER SUPPORTS OUR NATIVE WILDLIFE WHO DEPEND ON OUR WATERWAYS AND WETLANDS TO THRIVE.**

**WATER IS CRITICAL FOR KEEPING OUR PARKS, GARDENS AND NATURAL AREAS HEALTHY.**

Visit one of our local waterways or wetlands this National Water Week.
