

LEAK DETECTIVE

**Leaks can pop up in many areas inside and outside the home
- toilets, showers, taps and irrigation systems.**

Become a leak detective by conducting a home water audit using our handy guide. Take a photo or video (30 sec max) of being a champion water detective inspecting for leaks around the home.

Check out the [Water Leaks](#) page on how to detect leaks at home.

MOST LEAKS ARE VISIBLE AS DRIPS AND CAN WASTE HUNDREDS OF LITRES OF WATER IN A YEAR IF LEFT UNCHECKED.

A HIDDEN LEAK CAN WASTE UP TO 7,000L OF WATER PER DAY!
