

# Waterfront Promenade

## Stage 2

Waterfront Promenade Stage 2 is located along the Ross Creek adjacent to Flinders Street East. It is the latest section of the larger Waterfront Promenade network project with the boardwalk connecting the NQ Stadium Precinct, Central Park, Reid Park and Central Development site previously delivered as Stage 1. This Waterfront Promenade network project is designed to support connectivity, enhance and develop public spaces around the water's edge and facilitate safe and accessible pedestrian movement around key inner-city precincts.
