Quarterly Performance Report Quarter 1 2016/17 current as at 19-Oct-2016

4

Introduction >>

I am pleased to present the 2016/17 Corporate Performance Report for Quarter 1. This report demonstrates delivery on the Corporate Plan 2014-2019 and the Operational Plan/Budget for 2016/17.

In 2016/17, council planned to deliver a number of important projects which contribute to the social fabric of our community, such as the CBD Waterfront Pathways Project, CBD Utilities Upgrade, Cleveland Bay Purification Plant Capacity Upgrade, Southern Suburbs Rising Main, Townville Recreational Boating Park, Peggy Banfield Park, Townsville Entertainment and

Convention Centre Refurbishment and the Haughton Pipeline Duplication project.

The Local Government Regulation 2012 requires the Chief Executive Officer to present written quarterly assessments of council's progress towards delivering its annual Operational Plan. The Corporate Performance Report fulfils this requirement and provides substantive evidence for council and the community of our progress in delivering our annual operational plan each quarter and in delivering our promised outcomes for the city.

The following provides a snapshot of the achievements made during Quarter 1 of 2016/17:

- Lodged key government submissions and commenced review of the Townsville City Council's Economic Development Plan alongside the Regional Australia Institute's (RAI') Pathfinder Project
- Design for Waterfront Promenade Stage 1A is on track and to be completed by end of 2016
- Completed Road Maintenance Performance Contract (RMPC) audit
- Delivered public community and cultural events for the community
- Completed Flood Pump Inspection program
- Delivered Risk Management Framework training to staff
- Strong performance results for Urban Planning/Built environment

I thank the council and staff for their contribution to the first quarter and look forward to continuing the good work into 2016/17 financial year.

Ideli'

Adele Young MBA, MMkt Chief Executive Officer

Explaining our Corporate Performance Report >>

Council's Corporate Performance Report is delivered quarterly and assesses the cumulative progress towards delivering the activities defined in the Operational Plan and Budget 2016/17.

The report is structured in accordance with council's Corporate Planning Framework. Progress in delivering council's services and programmes is measured using key performance indicators and milestones and provides the basis for an annual assessment of progress towards meeting the goals and strategies outlined in the Corporate Plan.

The Operational Plan and Budget 2016/17identifies the services and programmes to be delivered over the course of the financial year. It can be noted throughout the report that some milestones are scheduled to be delivered across each of the four quarters while others are programmed for delivery in one or more specified quarters.

The Core Service section of this performance report provides an overview of all programmes and their current status. More detailed programme information including key performance indicators and milestones can be found in the Programme Detail section of this report, page 26 onwards. The key performance indicators, targets and milestones were set by each Department for the delivery of their programmes for the 2016/17 financial year. An explanation of each field is shown in the tables below.

In summary, by providing a cumulative assessment over the four quarters of the financial year and annual Operational Plan, council has the opportunity to respond more effectively to significant changes in our operating environment, whether they be social, economic, environmental or internal changes that affect our organisational capacity to deliver the annual Operational Plan.

Financial Performance >>

The performance report provides a year to date financial update by Core Service, Service and Programme. It details the year to date (YTD) budget and actuals for Operating Revenue, Operating Expenses, Capital Revenue, Capital Works and Contributed Assets, each of which are defined below: Operating Revenue includes rates and utility charges, fees and charges, recurrent grants and subsidies and interest revenue.

Operating Expenses include wages, materials and services expenditure related to operating activities as well as depreciation and finance costs. Operating costs associated with enabling activities are allocated as operating expenditure to council's services. This application allows for the full cost of council's service to be understood. The application of the recovery of these costs is applied to operating expenses of enabling services, reducing the operating expenses of enabling services.

Capital Revenue includes grants and subsidies received which are tied to specific projects for the replacement or upgrade of existing non-current assets and/or investment in new assets. It also includes non-cash contributions which are usually infrastructure assets received from developers. Capital Works includes capital expenditure for the replacement, upgrade and investment in new assets.

Contributed Assets are assets contributed to Council, usually infrastructure assets from developers. Further details of council's financial performance can be obtained through the Budget Variance Reports presented to council monthly.

| Programme | Status YTD | Current Period Comment |
| Gallery Collections Management | Θ | Work continues towards the development and implementation of a digital database for the City of Townsville Art Collection. Implementation requires data transfer from the old database to the new system from IT. Gallery Services are in liaison, but the project is being re-assessed due to recent Management changes in both business units. |
| | | Gallery Services' Collections Management Officer is balancing the development of this Conservation Management Plan with required tasks related to acquisitions and exhibitions specifically |
| Gallery Creative Classrooms | • | 19 Art-In-A-Suitcase programs (including launches) were delivered for 15 Townsville schools in the period July - September 2016. Participating schools in this period were Bluewater, Annandale, Willows, Oonoonba, Shalom, Good Shepherd, Holy Spirit, Railway Estate, Mutarnee, St. Jospeh's Mundingburra, Weir, Woodstock, Townsville South, Wulguru, and Southern Cross. |
| | | 9 Artists-In-Schools programs (including launches) were delivered for 3 Townsville schools in the period July - September 2016. Participating schools in this period were Ryan, St. Joseph's Mundingburra, and Bohlevale. |
| Gallery Creative Communities | • | 'Art After Dark' has been deferred for 2016, so a full program can be developed for delivery in 2017, which will allow Gallery Services to reach the KPI of 6 of the monthly programs. |
| | | 135 arts and cultural activities were developed and delivered in the period July - September 2016 for individuals, groups, organisations, and sub-cultures. |

| Gallery Creative Spaces | • | Gallery Services delivered 7 Shop 'n' Play programs in the period July - September 2016. The programs (Percivals Photobooth and Metamorphosis Inspired Sculptures) were delivered in Townsville Bulletin Square and Willows Shopping Centre. |
|----------------------------|---|---|
| | | New SHIFT programs have been in development in the period July - September 2016. |
| Gallery Exhibitions | 9 | Perc Tucker Regional Gallery and Pinnacles Gallery were on target for the forecasted visitation rates in this quarter. |
| | | 9 in-house curated exhibitions (major) were presented at Perc Tucker Regional Gallery and Pinnacles Gallery in the period July - September 2016. |
| Gallery Public Art | 0 | All works are documented. As with City of Townsville Art Collection public database, the final stage requires collaboration with IT. The project has been impacted by the management review affecting both sections. |
| | | The document has largely been drafted by the Public Art Officer. It requires further specialist input, which was to be contributed by the Manager Gallery Services calling upon the Manager's experience in the Public Art field. Final proofing was to follow. The TCC management review and subsequent restructure will result in a necessary re-assessment of the timeline for this project, and identification of the appropriate channel to source the required input. |
| Business Support-Galleries | Θ | 418 'Friends of the Galleries' members were current at the end of September, 2016. |
| | | In the period July - September 2016, 33 individual volunteers completed 248 shifts, totalling 934.5 hours of service. |

| Development Compliance | • | We were able to meet the KPI's for both appeals and response however there was an increase in jobs completed. These jobs included a significant number of jobs that are not deemed high priority through our risk assessment and as a result of an additional resource placed into the unit this back log of tasks is being completed, impacting on the resolution KPI. |
| Disaster Management | 9 | On target |
| Health Compliance | θ | Focus on working with owners to resolve the breaches identified have resulted in better outcomes and compliance for all parties however has resulted in KPI's not being met for resolution of complaints. |
| Health Management | • | Response KPI has increased significantly following some changes over the past two months. September KPI was 92%. |
| Parking Compliance | • | Unit functioning effectively. KPI's being met. |
| Vector Control | • | First quarter is going to plan with budget expenditure and operational functionality. Some strategic changes have been implemented to the Annual Proactive Program which will allow for further efficiencies to occur in the future. |
| Animal Management | ۲ | Continued prioritisation to complete high priority complaints within the Animal Management Program impact on the resolution of low priority complaints. Whilst there has been a reallocation of resources to assist in managing the back log of low priority complaints, this continues to affect the resolution KPI with a significant reduction in outstanding complaints. |

| Comment>> Townsville Water achieved 99.8% compliance with its drinking water quality requirements. This was due to an E.coli detection and a Trihalomethane (THM) detection at a sample point in the Townsville Water Supply Scheme. Extensive flushing was carried out on the day of the E.coli detection and chlorines were increased to the area in order to ensure adequate disinfection. Resampling occurred as soon as the E.coli detection was discovered and these resamples came back clear. The THM detection occurred as a result of the increased chlorine dosing in the area. The THM levels have since reduced to within the Australian Drinking Water Guideline limits | | | | | |
