

WORDSWORTH PARK UPGRADE

Community consultation

Council is committed to providing parks, sporting fields and recreational areas that promote active lifestyles, bring people together, and contribute to the wellbeing of our city.

PROJECT BACKGROUND

Wordsworth Park is the only park space in the suburb of Woodstock and has relatively underdeveloped facility assets. As the only large park in the area, Council has recognised that it has the capacity to be developed into a district destination park that serves Woodstock and surrounding residents. The first stage of this process is to conduct consultations with the community and the key stakeholder groups.

COMMUNITY CONSULTATION

The community consultation of Wordsworth Park will address the immediate and future needs of the park, and progressively develop the park to provide improved sporting and recreational opportunities for community use.

SUGGESTED IMPROVEMENTS INCLUDE

- Upgrade and seal off-road parking bay area
- Upgrade to the lighting of the park and amenities
- Upgrade to the toilet facilities
- Upgrade to the horse stalls facilities
- New recreational facilities including: electric BBQ, shelter, picnic shade and tables, small bicycle 'Pump Track', mini skate park, lawn bowls area, rebound wall for tennis practice, new play equipment suitable for multiple age groups with shade.

The community consultation also proposes additional shelters, seating, irrigation, landscaping and drainage.

HOW CAN I GET INVOLVED?

Residents are encouraged to have their say throughout April about what upgrades and new facilities they would like to see established in Wordsworth Park.

A survey will be available through the Townsville City Council website during the consultation period. Onsite meetings and forums with community and key stakeholders will also occur.

Go to townsville.qld.gov.au and search 'wordsworth'.

COMMUNITY FEEDBACK

Feedback received will help influence the detailed design of the park and ensure that the proposed upgrades and new facilities will meet the community's expectations. The final outputs of the community consultation process will be sent to detailed design. All future works will be dependant on funding and Council's 2019/20 Budget. The project will follow a staged delivery approach.

Delivering on our promises
