

My Weather Station

Use these questions
as a guide to write
about learning to build
weather stations

Name: _____ **Date:** _____

Write a paragraph recounting your experience with learning about and building a weather station. Use the following questions as a guide for your response:

- What are the main components of your weather station, how do those components work together to transmit data to the network?
- How does your weather station connect to other weather stations to build a temperature map of Townsville?
- How do you access and visualise the data collected from your weather station? What sort of data does your weather station collect?
- How does your weather station help organisations like James Cook University, and Townsville City Council?

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
