Works Notification

Gouldian Avenue Water Main Upgrade and Road Resurfacing Update

Tuesday 3 November 2026

What works are coming up?

Townsville City Council is continuing work on the Gouldian Avenue Water Main Upgrade to improve water supply reliability and support future growth in the Upper Ross area.

The next phase of works involves the installation of a new water main on the southern side of Gouldian Avenue, between Pinnacle Drive and Eider Court.

There will be no planned water supply interruptions during these works. The existing water main will remain in place and will continue to operate as normal.

When will the works take place?

Location	**Gouldian Avenue, between Pinnacle Drive and Eider Court**
Timing	Works are scheduled to begin on **9 November 2026** and are expected to continue for **five (5) months**, weather permitting.
Hours	Regular work hours are **6am to 6pm, Monday to Friday.** In exceptional cases, work may be required outside these hours.

What will the works involve?

As part of the installation works, Council will:

- install a new water main along Gouldian Avenue
- excavate a trench along the roadside in front of properties along Gouldian Avenue, between Pinnacle Drive and Eider Court
- backfill and reinstate work areas as construction progresses.

What does this mean for me?

If you live near or are travelling through the area you may experience:

- construction activity and increased vehicle movements
- temporary lane closures and changed traffic conditions
- reduced speed limits and minor travel delays
- noise during active construction periods
- temporary restrictions to driveway access while works are undertaken in front of properties.

Residents will not be able to access their driveways while works are taking place in front of their property. Depending on the location of works, this temporary restriction may be in place for up to four days.

Council's contractor will contact affected property owners at least 48 hours before works commence outside their property and will work with residents to maintain access wherever possible.

Funding

Phase Two, resurfacing of Gouldian Avenue, is funded by the Queensland Government.
