

Council Pre Project - Works Notification

Castle Hill Handrail Renewal Works

Works location: Castle Hill, Townsville City

Flyer delivery date: Friday, 16 December 2022

Townsville City Council has been successful in securing a significant budget to improve Townsville's infrastructure, parks, and venues, as part of the Works for Queensland (W4Q) initiative by the Queensland Government.

Council continues the rollout of W4Q projects across the city and as a part of this program; Townsville City will receive the Castle Hill Summit Track Handrail Renewal works.

Council is undertaking important safety maintenance work on the summit walking track of Castle Hill. Works will include handrail replacement and associated infrastructure works to ensure that the accessibility track is and continues to be safe for community use.

Council advises that due to the nature of these works the Castle Hill Road including western facing walking tracks will require to be periodically closed for the safety of the community and the workers on site.

Residents will be allowed to access their property with the assistance of traffic controllers.

The **Castle Hill** Summit Track Handrail renewal works including the second temporary access closure has been tentatively scheduled to commence on **Wednesday, 11 January 2023** and is expected to take **one (1) day** to complete (weather and project conditions permitting).

Works may involve:

- Temporary closure of Castle Hill
- Machinery operating on the road and the air
- Noise, flashing lights and dust

Normal work hours including closure is planned to commence from **6am**. In exceptional cases, work may be required outside these hours.

These works are subject to favorable weather conditions and if unachievable works will proceed to the next business day.

Please be advised that a designated Works Notification will be provided seven days pre-project which will include confirmed closure date and timings.

Thank you for your patience and cooperation during these works.
