## Wulguru Wastewater Infrastructure Resilience Program – Wright Street Road Closure

### What works are coming up?

Townsville City Council has commenced Stage 2 of this project, continuing construction of the new sewer diversion between Cluden Park and Wright Street.

Wright Street will be temporarily closed between Stuart Drive and Munroe Street to allow for the safe installation of pipeline beneath Stuart Drive. This work will take place after the contractor completes the final section of pipeline to Stuart Drive and before excavating the pits required for micro-tunnelling works.

Traffic management and detour signage will be in place during the closure, and Council will keep residents and road users informed as works progress. The bus stops on Wright Street within the work zone will be closed for the duration of the work.

### When will the works take place?

|                 |                                                                                                                                                                       |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Location</b> | <b>Wright Street, Wulguru</b>                                                                                                                                         |
| <b>Timing</b>   | Wright Street will close between Stuart Drive and Munroe Street on <b>Monday 17 August 2026</b> and will remain closed for <b>six (6) weeks</b> , weather permitting. |
| <b>Hours</b>    | Regular work hours are from <b>6am to 6pm Monday to Saturday</b> . In exceptional cases, work may be required outside these hours.                                    |

### What will the works include?

As part of the works, Council will:

- temporarily close Wright Street between Stuart Drive and Munroe Street to allow crews to safely install the pipeline beneath Stuart Drive.
- construct the final trenched section of pipeline up to Stuart Drive.
- excavate the pits required for micro-tunnelling works beneath Stuart Drive.

### What does this mean for me?

If you live in or are travelling through the area, you may experience:

- construction machinery and increased vehicle movement
- higher levels of dust, noise, and vibration
- localised traffic management during the works, particularly near Stuart Drive and Wright Street.

### Funding

Stage 2 of this project is funded by Townsville City Council.
