

Water Security Infrastructure

Local Industry Information Session

WHEN: Wednesday 15 November 2017

TIME: 9.45am for 10.00am start – concluding by 1.00pm

WHERE: Reid Park

Townsville City Council has commenced early works on the new pipeline infrastructure as part of our water security solution for Townsville.

As part of Council's commitment to maximising opportunities for local businesses to participate in the project, we are convening an Industry Forum for suppliers and sub-contractors. The briefing will provide an update on the project, outline the scope of work, and offer the opportunity to meet with Council representatives about this project.

AGENDA:

The Forum will include two sessions. The first session will commence at 10am and will be hosted by Townsville Mayor Jenny Hill and Acting CEO Mike Chiodo. This session will include general information and provide an overview of the project.

The second session will be broken into two groups – one for consultants and professional service providers and the other for constructors, manufacturers and suppliers. The second session will start at 11am and will include a Q&A session.

REGISTRATION ESSENTIAL:

Pre-registering attendance is essential as numbers are limited and the Forum is expected to be an in-demand event.

To express interest in attending the Forum please RSVP to enquiries@townsville.qld.gov.au with the subject title **Water Security - Local Industry Information Session**. Please provide your company details, attendee's name, contact telephone number, email address and industry type (note that a limit of one representative per company applies).

RSVP close 3:00 p.m. on **Tuesday, 14 November 2017**.
