## NEXT

Can you find  
the answers in  
the exhibiting  
artworks?

## DOT-TO-DOT

Animals are the main subjects of all the artworks in the **Percival Animal Portrait Prize**.

Join the dots to reveal an animal, then view the **Animal Portrait Prize** exhibition to see if you can find this animal on display!

## BODY LANGUAGE

Body Language can be used in portraiture to express feelings or to portray someone's character.

Have a look at Percy in the two images below. What emotions is Percy experiencing?

Write your answers in the spaces provided!

# COLOUR

By using certain colours in a portrait, artists create different moods and suggest feelings.

**WARM COLOURS** can be vivid, eye-catching, and energetic.

**COOL COLOURS** can give an impression of calm, gentleness, and quiet.

Using the colour wheel to help you, colour one of my portraits in warm colours and the other in cool colours!

How do the different colours make you feel?

# PEOPLE & PLACES

Sometimes artists choose to include details like objects, backgrounds, furniture, or animals in their artworks to tell us about the subject.

Like a detective, look around the exhibition to find what artists included in their portraits.

What can you learn about the subject from what you find?

Use the space below to draw your self portrait.

What objects will you include to tell about yourself?

# PHOTOGRAPHY

An important part of photography is framing the photo in order to draw the eye of the viewer into the photograph.

**Pop out the view finder of the camera on the next page, look through it and practice framing a scene!**
