Attachment 3—Reasons for the decision

(Given under section 63(5) of the *Planning Act 2016*)

The reasons for SARA's decision are:

The development complies with State code 1: Development in a State controlled road environment and State code 6: Protection of State transport networks of the State Development Assessment Provisions (SDAP). Specifically, the development:

- does not create a safety hazard for users of a state-controlled road, by increasing the likelihood or frequency of fatality or serious injury
- does not result in a worsening of the physical condition or operating performance of state-controlled roads and the surrounding road network
- does not compromise the state's ability to maintain and operate state-controlled roads, or significantly increase the cost to maintain and operate state-controlled roads.

The development complies with State code 16: *Native vegetation clearing* of the SDAP. Specifically, the development:

- minimises clearing to conserve vegetation, avoid land degradation and loss of biodiversity and maintains ecological processes
- avoids impacts on vegetation that are matters of state environmental significance and where it can't be avoided, the development minimises and mitigates impacts.

Material used in the assessment of the application:

- The development application material and submitted plans
- *Planning Act 2016*
- Planning Regulation 2017
- The *State Development Assessment Provisions* (version 2.6), as published by SARA
- Technical Agency advice
- The Development Assessment Rules
- SARA DA Mapping system
