

ECONOMIC GRANTS & PARTNERSHIPS PRIORITIES

TOWNSVILLE CITY
**GRANTS &
PARTNERSHIPS**

Welcome to our Grants and Partnerships Economic category. The aim is to provide grants and create partnerships to support initiatives which address a community need and deliver an economic benefit.

Our goal is to deliver a strong and innovative economy for Townsville with sustainable growth and support for local jobs and businesses.

If your business or community organisation has been negatively impacted by COVID-19 and your project does not directly align with any of the below categories, please contact us to further discuss potential opportunities for funding.

To apply for a grant or partnership your initiative will need to align with one of the three priorities listed:

Priority: Business and Investment Attraction - Support the establishment of new operations in Townsville.

This priority targets both commercial and not for profit groups setting up new businesses in Townsville. The aim of this priority is to assist in creating jobs.

Priority: Innovation Incubator - Build capacity in the Townsville region to support the development of start-ups and incubator facilities.

This priority targets research, local collaboration and spaces for product development.

Priority: Tourism and Events - Establish new tourism experiences or strengthen existing services and events to increase visitation and expenditure in the Townsville region.

This priority targets local businesses and events that highlight Townsville's unique lifestyle and landscape to attract visitors to the region.

Priority: Placemaking- Enliven the CBD through activation, events, and placemaking in public spaces.

This priority targets CBD property owners and tenants as well as groups holding events, installations or pop ups within the CBD core area.
