

Investing in Magnetic Island

Millions will be invested this financial year on Magnetic Island on a variety of projects ranging from community infrastructure, renewal of water and wastewater assets to road projects.

Council is investing in the Island's future, constructing and maintaining infrastructure built for our community, laying the foundations that will entice investment to the region as a connected and sustainable destination driven by lifestyle and nature.

"We are so lucky to have such a beautiful island just a short distance off our coast, but these sorts of assets require significant investment to ensure they remain a great place to live and visit," Mayor of Townsville, Jenny Hill.

Australian Government

Queensland Government

¹ Townsville City Council in partnership with the Commonwealth and Queensland Government is proud to deliver the Apjohn Street Drainage Improvement Works through the Disaster Recovery Funding Arrangements (DRFA). The DRFA program provides disaster relief and recovery payments and infrastructure restoration to help communities recover from the effects of a natural disaster.

² The Nelly Bay Pedestrian Link is a Transport and Tourism Connection Project jointly funded by Department of Transport and Main Roads and Townsville City Council.
