Did you know that Townsville City Council maintains more than 1,771 km of roads throughout our region?

Our roads are one of our most critical assets, which is why Council continues to prioritise their maintenance. These works will ensure Townsville’s transport network continues to deliver a high quality experience for users.

Works will involve:

<table>
<thead>
<tr>
<th>STAGE 1: Preparation Works</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAGE 2: Bitumen Seal</td>
</tr>
<tr>
<td>STAGE 3: Final asphalt resurfacing</td>
</tr>
<tr>
<td>STAGE 4: Post asphalt resurfacing works</td>
</tr>
</tbody>
</table>

Council allows a minimum of 7 days for resurfacing works to be completed. Please note these timeframes are dependent on the size of the work area and unforeseen circumstances that may arise.

Will I have difficulty accessing my property during the works?

- Preparation works
  You will still have access to your property with some minor disruptions.
- Bitumen spraying and Asphalt Overlay
  Access to your property will be limited during working hours as road closures will be necessary. Council crews will always arrange access for emergency services vehicles.

Where do I park my car during the works?

Vehicles should be parked off the road at all times during the scheduled works. During preparation works, you can park your vehicle within your property. During the bitumen spraying and asphalt overlay, it is recommended that you park your vehicle in a nearby street before 6am on the day the work starts.

I have a disability and/or care arrangements. How can I arrange access to my mode of transport?

Speak to an onsite crew leader or contact Council on 13 48 10 and the crew leader will contact you to make arrangements.

I have removalists booked during the works. How do I arrange access to my property?

Speak to an onsite crew leader or contact Council on 13 48 10 and advise of your moving date/s and the crew leader will contact you to make arrangements.

Townsville City Council would like to thank all impacted for their patience and cooperation during these works.
Works location: Kerema Street, Roseneath

Flyer delivery date: Tuesday, 21 January 2020

Townsville City Council is committed to delivering quality services for our community and has allocated a budget of over $400 million to improve and maintain our city’s infrastructure.

Council has also received Queensland Government funding under the Works for Queensland (W4Q) 2019-21 program to undertake job-creating maintenance and minor works.

As part of these W4Q works, Council will spray seal the road that extends along Kerema Street between Madang and Satelburg Streets.

Spray seal is an economical road surfacing product ideal for country roads where capital cost and traffic volumes mean the application of asphalt is impractical.

Sealing Kerema Street will also improve access, amenity and safety for all road users.

Resurfacing works are scheduled to commence on Monday, 3 February 2020 and are expected to take six (6) weeks to complete (weather and conditions permitting).

Works may involve:

- temporary traffic control
- machinery operating on road - please park vehicles off the road
- excavations in the road and adjacent footpath
- removal of trees
- noise

A local contractor, CES Civil, will undertake these works on behalf of Council. Normal work hours are 6am to 4pm Monday to Friday and 6am to 2pm on Saturday. In exceptional cases, work may be required outside these hours.

Contact: Gilbert Sommer, Project Manager – Project Management Office

This Works for Queensland project is delivering jobs for regional Queensland and is funded by the Queensland Government.

Building for our future
