Gulliver and Hugh Streets Active Transport Facilities Upgrade Update

Tuesday 1 September 2026

What works are coming up?

Pathway works are continuing along Gulliver and Hugh Streets as Townsville City Council prepares to upgrade a section of pathway between the Hugh Street bus stop, adjacent to the Pimlico State High School sports field, and L Block.

To maintain safe access during pathway works, pedestrians will be redirected through a temporary lane closure. This will ensure continued access to the school gates while allowing parent drop-off areas and bus stops to remain operational.

Traffic controllers and signage will be in place to assist pedestrians and motorists through the area. Road users are asked to follow all directions and allow extra time when travelling through the work zone.

When will the works take place?

Location	Hugh Street, adjacent to Pimlico State High School, as shown below.
Timing	Works in this section start on 7 September 2026 and are expected to take six (6) weeks to complete, weather permitting.
Hours	Regular work hours are 6am to 6pm, Monday to Saturday . In exceptional cases, work may be required outside these hours.

Funding

Jointly funded by Townsville City Council and the Australian Government's Safer Local Roads and Infrastructure Program (SLRIP).

What will the works involve?

As part of these works, Council will:

- remove the existing pathway surface
- construct a new pathway connection
- undertake associated landscaping and reinstatement works
- implement temporary traffic management to maintain safety throughout construction.

What does this mean for me?

If you are travelling through the area, you may notice:

- construction crews, machinery and work vehicles operating within the work zone
- temporary traffic changes and minor delays
- reduced speed limits near the work area
- increased noise, dust and vibration during work hours.

Council will work to minimise disruptions wherever possible and appreciates the community's patience while these important works are completed.
