

# SOCIAL GRANTS & PARTNERSHIPS PRIORITIES

TOWNSVILLE CITY  
**GRANTS &  
PARTNERSHIPS**

Welcome to our Grants and Partnerships Social category. The aim is to provide grants and create partnerships to support initiatives which address a community need and deliver a social benefit.

Our goal is to enhance people's experience of Townsville as a livable and vibrant city that supports growth of an inclusive, knowledgeable, active, safe, and healthy community.

To apply for a grant or partnership you will need to align your initiative with one of the five priorities listed:

## **Priority: Boost Townsville's Art and Cultural Experience**

The intent of this priority is to generate arts and cultural experience in the city and surrounding suburbs that engages and challenges audiences and activates spaces. Council encourages collaboration, innovation, and entrepreneurial ideas to foster community pride and establish Townsville as the arts and culture capital of Northern Australia.

## **Priority: Build a Community that is Safe and Resilient**

The intent of this priority is to encourage initiatives that increase the safety and wellbeing of local residents. In particular, initiatives that create community connections, educational opportunities and events that develop long term benefits in crime prevention, community safety and increased resilience. Connected communities create safer communities.

## **Priority: Support Multicultural Diversity and Community Inclusiveness**

The intent of this priority is to support initiatives which help build a welcoming and inclusive community. One which celebrates, respects and acknowledges Aboriginal and Torres Strait Islander people and supports multicultural and community diversity, encouraging participation and creating a sense of belonging.

## **Priority: Develop Healthy and Active Lifestyles**

The intent of this priority is to promote physical and mental health, and wellbeing, through active lifestyles, education, and increased opportunities for participation to develop the liveability of Townsville. This includes encouraging greater use of Townsville's open spaces and support to local sporting clubs and community groups to increase their organisational capacity.

## **Priority: Grow the Capacity of Townsville through Shared Knowledge and Learning**

The intent of this priority is to assist in enhancing community knowledge of, and access to, services to support organisational growth and success. The aim is to build community capacity, skills and knowledge through training, professional development and group collaboration identified by community, for community.
