

How to access the MiWater Portal

Access your water anywhere, anytime

What is the MiWater Portal?

The MiWater Portal is a secure online website that allows residents with integrated smart water meters or standard meters with clip on tag devices, to monitor their water consumption at any time. MiWater provides hourly, daily, weekly, monthly and yearly consumption reports, plus enables residents to set up leak notifications and high usage reports.

What are the benefits of the MiWater Portal?

Leak notifications
(SMS or email)

View hourly water consumption

Monitor and reduce water usage

Remote access anywhere and anytime

Sign up now!

How can I log into the MiWater Portal?

Residents with a Smart Water Meter can register online to access the MiWater Portal.

Step 1 Scan QR Code on the right, or search:

[Townsville MiWater Portal](#)

Step 2 Click on 'Sign Up Now'.
