

Works Notification

Winifred Street Stormwater Drainage Upgrade

Tuesday, 29 July 2025

What works are coming up?

Council is undertaking flooding and drainage improvement upgrades along Winifred Street, with the first stage taking place at the intersection of Winifred Street and Love Lane in Mundingburra.

This project is part of Council's annual road maintenance program, designed to address structural deficiencies and enhance drainage across Council controlled road networks. The aim is to improve safety, reduce maintenance costs, and raise the quality of life for residents.

When will the works take place?

Location	Winifred Street and Love Lane Intersection, Mundingburra
Timing	On Tuesday, 5 August 2025 and are expected to take six (6) weeks to complete, weather and project conditions permitting.
Hours	Normal work hours are from 6am to 6pm Monday to Saturday . In exceptional cases, work may be required outside these hours.

What will the works include?

As part of this project, Council will:

- construct and install underground stormwater pipes at the intersection
- renew identified manhole access pits and construct additional access pits

- renew sections of the associated kerb and channel and replace road pavement impacted by these works.

What does this mean for me?

If you live in or are travelling through the area, you may experience:

- construction machinery and vehicle movement
- increased levels of dust, noise, and vibrations
- temporary traffic changes, including road closures, detours, minor traffic delays and reduced speed limits.

Council advises that due to the nature of these works, a road closure will be in place, with clearly signed detours throughout works.

Funding

Project funded by Townsville City Council.
