

Works Notification

Gouldian Avenue Water Main Upgrade and Road Resurfacing

Wednesday 15 July 2026

What works are coming up?

Townsville City Council is delivering a water main upgrade and road resurfacing project along Gouldian Avenue, Condon, to improve water reliability, enhance road safety and support the long-term performance of these important community assets.

The project will be delivered in two phases:

Phase One – Water Main Upgrade

A new trunk water main and associated infrastructure will be installed to improve water supply reliability, increase network capacity and support future growth in Condon and the Upper Ross area.

Phase Two – Road Resurfacing

Gouldian Avenue will be resurfaced between Riverway Drive and Beck Drive. These works will include pavement repairs and new asphalt to improve driving conditions and extend the life of the road.

When will the works take place?

Location	Gouldian Avenue (Between Riverway and Becks Drives)
Timing	Phase One works start on Monday 20 July 2026 and are expected to take three (3) months to complete, weather permitting.
Hours	Regular work hours are 6am to 6pm, Monday to Saturday . In exceptional cases, work may be required outside these hours.

Funding

Phase Two, resurfacing of Gouldian Avenue, is funded by the Queensland Government.

What will the works include?

As part of **Phase One** works, Council will:

- install a new trunk water main along Gouldian Avenue
- install new local water mains along the northern footpath
- connect new services to existing residential water meters
- pressure test, disinfect and commission the new network
- install air valves and associated pipework
- excavate, lay pipe and backfill
- install support structures at key points
- reinstate road pavement and footpaths after works.

What does this mean for me?

If you live near or are travelling through the area you may experience:

- construction activity and vehicle movements
- temporary lane closures and changed traffic conditions
- reduced speed limits and minor delays
- temporary driveway or property access changes where required
- noise during periods of active construction.
