

Council Safety Works Notification

Tree Maintenance

Work location: The Strand, Townsville City

Flyer delivery date: Tuesday, 1 September 2020

Townsville City Council is committed to delivering quality services, updating, and maintaining infrastructure and supporting jobs and has allocated a balanced budget to support our community through one of the toughest periods of our city's history.

Council will be conducting annual maintenance of all trees and associated vegetation foliage throughout the nature strip and road verges along The Strand foreshore, as indicated via the red boxed area overleaf.

The purpose of the maintenance will include the removal of identified tree branches and associated foliage to avoid the branches impeding or falling into the Strand roadway and or pedestrian walkways causing continual maintenance concerns, potential infrastructure damage and a risk to public safety.

Council arborist has identified tree branches that will be removed and will monitor the complete maintenance of the associated trees ensuring the internal health of the trees remain intact and post will continue to grow and cause no further damage to infrastructure.

Landscaping maintenance works are scheduled to commence over a two-stage period with first maintenance stage commencing on **Wednesday, 9 September** through to **Friday, 11 September 2020** and the second maintenance stage commencing on **Monday, 14 September** through to **Wednesday, 16 September 2020** (weather and conditions permitting).

Council advises that these works will be conducted in stages to reduce the impact on the Strand parking and traffic movement throughout these works.

Works will involve:

- removal of tree branches and mulching
- operation of machinery
- changed traffic conditions (temporary)
- noise.

Council will be using a qualified contractor to undertake the landscaping maintenance works.

Normal work hours are **6am to 5pm Monday to Friday**.
