

BUILDING FOR OUR FUTURE

Drainage: What you need to know

Did you know that Townsville City Council maintains more than 735km of stormwater channels throughout our region?

Our drainage network is an essential part of our city's infrastructure, which is why Council continues to prioritise their maintenance and renewal.

Works will involve:

Traffic management between 6am – 4pm

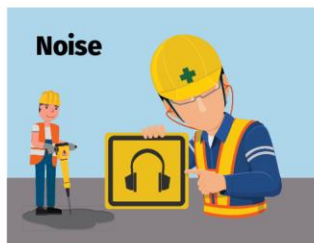

Machinery operating on road

Replacement or maintenance of drainage network

Noise

Will I have difficulty accessing my property during the works?

If your driveway is being reconstructed as part of the works, access to your property will not be possible for two days after the new kerb and channel has been poured.

Will there be traffic management in place?

There may be partial road closures and/or associated parking bays and footpaths depending on the type of works being conducted.

I have an irrigation system set up on my nature strip, will it be damaged in the works?

If you have an irrigation system on the nature strip, make contact with the crew leader on site to identify the location before any works begin. Council will only repair damage to irrigation caused by our works. It is advised that you check the operation of the system on completion of the work, as any damage needs to be reported within one month of the completed works.

What if I need to arrange access to my property/business throughout the duration of the works?

Access to your property or businesses may be restricted depending on the works conducted, if this is the case a Council representative will make contact at least 24 hours prior. If you need to arrange access speak to an onsite crew leader or contact Council on 13 48 10 and let them know of your situation.

I have a disability and/or care arrangements. How can I arrange access to my property/mode of transport?

Speak to an onsite crew leader or contact Council on 13 48 10 and the crew leader will contact you to make arrangements.

Townsville City Council would like to thank all impacted for their patience and cooperation during these works.

Drainage: Council Works Notification

Works location: Central Park, Townsville City

Flyer delivery date: Monday, 10 August 2020

Townsville City Council is committed to delivering quality services, updating, and maintaining infrastructure and supporting jobs and has allocated a balanced budget to support our community through one of the toughest periods of our city's history.

Council works will involve renewal of the seven underground stormwater drainage pipes and associated earthworks within Central Park that will improve stormwater infrastructure in a catchment zone that stretches from the Queensland Country Bank Stadium through to George Roberts Bridge.

Quality accessible open spaces are a priority for our city, the Central Park future proofing of the underground network remediation and ground surface works will provide the secured footings for future project opportunities.

The **Central Park** drainage works within the boundaries of Lowthes Bridge and Victoria Bridge are scheduled to commence on **Friday, 14 August 2020** and are expected to take **four (4) months** to complete (weather and conditions permitting).

Works may involve:

- Central Park and boardwalk sectional closures
- machinery operating within the park
- hydro-vac and diggers operating
- noise

Please note that for the safety of the community there is the requirement for sectional closures of Central Park including partial parts of the boardwalk connection between the bridge boundaries of Lowthes Bridge and Victoria Bridge, for the period of the project.

Normal work hours are **6am to 4pm Monday to Friday** and **6am to 2pm on Saturday**. In exceptional cases, work may be required outside these hours.

Contact: Angus Cook, Team Leader, Construction, Maintenance and Operations.
